### **DETAILED ACTION**

1. Claims 2-26 and 30-32 are presented for examination.
2. The amendment file April 11, 2005 is entered.

### ***Allowable Subject Matter***

3. Claims 2-26 and 30-32 are allowed.
4. The following is an examiner's statement of reasons for allowance: the claimed invention is directed to a display apparatus.

Independent claim 2, 13 and 15 identify a uniquely distinct feature "the second communicating section transfers data packets having a control field including identification information, which is an ID to denote the horizontal driving sections to be transferred the various control data, control identification information to denote a type of the control data, and an information field including the control data to the horizontal driving sections".

Independent claims 24-26 identify a uniquely distinct feature "the second communicating section transfers data packets having a control field including identification information, which is the ID to discriminate the horizontal driving section to be transferred the lighting data, and control identification information to denote a type of the lighting data, and an information field including the lighting data to the horizontal driving sections".

Independent claim 30-32 identify a uniquely distinct feature "wherein the data packet has a control field including identification information which is an ID to denote the horizontal driving sections to be transferred the various control data, control identification information to denote a type of the control data, and an information field including the control data to the horizontal driving sections".

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Ikeda et al. (Patent # 5,815,136).

The closest arts, Ikeda et al. as discussed in the previous office action, either singularly or in combination, fails to anticipate or render obvious the above limitations obvious.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
